

Junior Backend Developer

Do you want ensures the further development of customer-facing solutions?

At **IT2Pi** we encourage creative **thinking** and **innovation**. We work in dynamic and interdisciplinary teams. We care about our employees and take particular **responsibility** for improving society and preserving our environment.

Do, what you love

- You develop high-quality, structured code in a full stack team with focus on **frontend** or **backend**
- You bring practical experience with RESTful APIs and service-oriented architecture
- Balanced relationship between pragmatic development (prototyping) and stable sustainable solution development in an **agile organization**
- Team player with goal-oriented working methods, open-mindedness towards learning new technologies and with an initiative for independent development
- You are a good communicator (verbal **English** language skills needed, **German** is a plus)

Show us, what you can do

- You are proficient in **OOP** and in applying **design patterns**
- continuous integration and code reviews, experience with agile or iterative development methods
- skills in software development with **C++**, **JAVA EE**, **.Net**, **Node JS** or **PHP**
- You have experience with **SQL** databases
- Minimum: **1 year of programming experience**
- Interest in a **long-term and continuous cooperation**

Why you should apply

- We actively support personal development with internal and external **trainings**
- We have **fun** at work
- A varied, challenging job awaits you with exciting projects from **Europe** and **North America**
- An innovative, exciting company that values employees who can think outside of the box, wants to make a difference and strike out in a new direction

Are you excited to start your journey with **IT2Pi** and join our dynamic team as a **Backend Developer**? We look forward to receiving your application (**CV**) as well as your salary expectations and earliest possible starting date. **Astrit Bekaj** would be happy to answer any questions you may have.

Contact : Astrit Bekaj **Email**: jobs@it2pi.com **Phone**: 0038344413073

Apply and #stayhome! Due to the **coronavirus** outbreak, we switched our operations company-wide to home office and turned our hiring process into a **fully virtual one**. When hiring, we are also open for our new team members starting their work remotely at the time being or adjusting contract start dates accordingly. Stay home and safe!
